Re: Water District 34 – Futile Call and Water Delivery below Mackay Reservoir

Pursuant to our phone conference on the afternoon of August 7, 2003, IDWR directs you to immediately deliver the senior 1883 priority water rights on the Moore Canal. IDWR directs you to immediately curtail delivery of water to all junior 1883 priority water rights with diversions in the Mackay and Leslie reaches below the reservoir (Sharp diversion to Beck diversion). IDWR further directs you to deliver water to the senior priority rights on the Moore Canal and maintain curtailment of the diversions in the Mackay and Leslie reaches for a period of 72 hours (three days) before making any additional futile call requests.

Please contact IDWR at or near the end of the 72-hour term and advise us as to whether any water can be delivered to the 1883 rights on the Moore Canal. The Director can issue a decision regarding a futile call at the conclusion of the 72-hour period.
